

We have had somewhat slow volume week, but it is expected at this point in the season. We have captured 16 birds (8 species) since opening on the 3rd of April. We have banded 13 new birds. Since it has been a little slow we have been focusing on training as well as organizational/maintenance tasks between net runs. No incidents to report. I will be in further contact with Kyle, but please let me know if there are specific things any of you would like to see in the weekly banding reports going forward.

Species (Count)

Song Sparrow (3)

Lincoln's Sparrow (4)

Spotted Towhee (3)

Sagebrush Sparrow (1)

Dark-eyed Junco (1)

Hermit Thrush (1)

Ruby-Crowned Kinglet (1)
